Response

Dear Andrew,

CONGRATULATIONS!

The Green Building Council of Australia is very pleased to announce that **Googong Recertification** has been awarded a **5 Star Green Star - Communities v1.1 Certified Rating**, which represents Australian Excellence in sustainable precincts.

Please find attached the final results of your assessment.

A Green Star rating is something of which your entire team can be proud, and we are keen to work with you to showcase your leadership in sustainability.

Next Steps:

Green Star Project Directory

- Please allow us to promote your certified rating! You can easily do this by updating the projects details in the [Green Star Project Manager](#).

Green Star logos

- The Green Star logo is your trusted-third party proof that you can market to your stakeholders. Andrew, as the applicant contact, you can download these logos at any time. Simply log into the [Green Star Project Manager](#) and select your project, and then choose "Project Files". You'll be able to download these directly. Please make sure you refer to the [Green Star Marketing Kit and Style Guide](#) when using these logos, as they are governed by a trade mark.

Green Star Certificate

- Your Green Star certificate is now available to download from the [Green Star Project Manager](#). We encourage you to showcase your achievement and can work with you to arrange specific branding appropriate to your project.

Marketing opportunities

- Let's work together to promote your certified rating. Please provide the most up-to-date contact details for your Marketing or Communications team to marketing@gbca.org.au or call us on 02 8239 6200 so that our Market Communications team can work with you to optimise promotion of your certified rating. Additionally, check out our [Green Star Marketing Kit](#), which has lots of interesting ideas to help you spread the word.

Media

- If you want to issue a media release, please email Fiona Benson at Fiona.benson@gbca.org.au who can provide support and advice.

Feedback – Let us know what you think

- We are committed to continual improvement, and that means gaining feedback on your experience working with us. You will be contacted by the GBCA to answer 4 quick questions to share your thoughts on the customer service we provided. We appreciate you taking 10 minutes of your time to provide feedback. The valuable information you provide will help us to improve our services and make your experience even better on your next Green Star project.

Timing of Recertification

- To maintain continuous certification, *Green Star - Communities v1.1* projects must re-submit for full assessment every 5 years. You must provide your next submission for **Googong Recertification** to the GBCA in sufficient time for the full assessment process to take place, noting that the two rounds of assessment combined may take up to ten weeks to complete. **The expiration date of this certification is 17/03/2026.**
- Should your certification expire, you are required to remove all claims of Green Star certification and use of the Green Star certified trade mark until such time as the trade mark is reissued following certification.

If you have any questions regarding your results or the Green Star certification process, please feel free to contact me or a member of the Green Star team.

Once again, congratulations on the Green Star certified rating!

Kind regards,

Diveshen Gengiah
